

UpPro

P2514 VFD 5-18

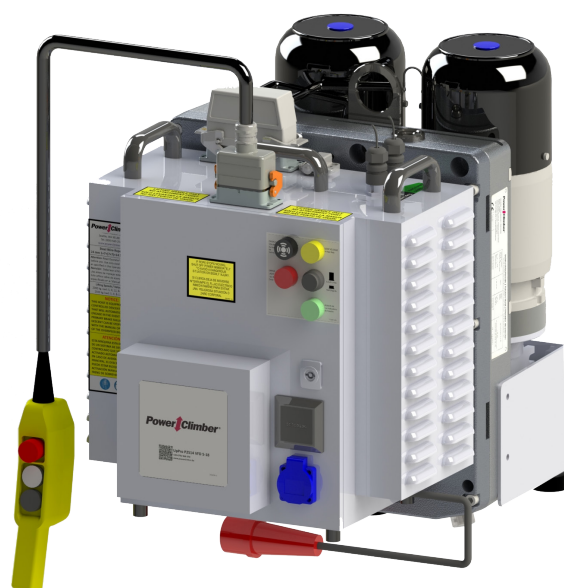

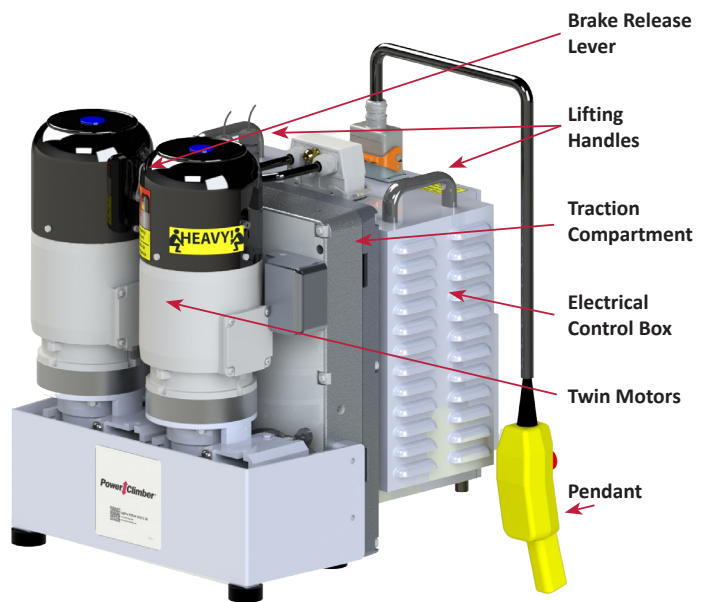

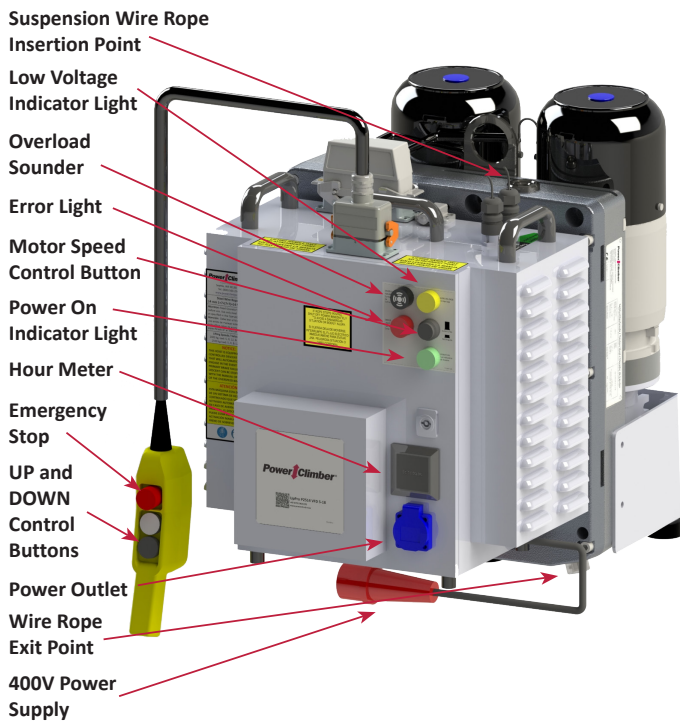

The UpPro P2514 VFD 5-18 is Power Climber's highest capacity man-rated hoist. With CE approval, a 2,500-kg capacity and speeds up to 18 mpm, the UpPro P2514 VFD 5-18 maximizes productivity in elevator installation applications.

UpPro P2514 VFD 5-18

Designed for High-Speed, Guided Man-Riding Applications

- High lifting capacity of 2,500 kg
- Multi-speed control up to 18 mpm maximizes productivity based on load
- Optimal power management and soft starts with variable frequency drive
- Industry-best power range, from 340 to 440 line voltage, to eliminate most power supply issues
- Multiple mounting options for various car sling or platform configurations
- Ergonomic handling and flexible use with a detachable control unit
- Ensured operator safety through torque based overload protection and optional Overspeed Safety Lock (OSL)
- Controlled descent feature for self-rescue of workers and platforms
- Optional cart versatile for transporting and positioning hoist under the car sling

	UpPro P2514 VFD 5-18
Capacity	2,500 kg
Travel Speed	up to 18 mpm
Power	400V + 10%/-15%; 50 Hz; 3-phase
Amperage at working load limit	16 Amps
Wire Rope	14 mm
Weight	Hoist: 125 kg Control unit: 31 kg
Dimensions	470 x 627 x 611 mm

Power Climber
 Power Climber has been engineering and manufacturing hoists, platforms, rigging equipment, safety gear, and accessories for the suspended access industry since 1972. With facilities in North America, Europe, and Asia, Power Climber distributes its products to leading rental dealers, facility owners, and contractors around the world, and backs them up with industry-leading training, customer service, and support.

We design, manufacture, and distribute the highest quality hoists and suspended access systems in the market.

Regardless of your location, we have a team of support professionals to assist with all your powered access equipment needs.
